WORK EXPERIENCE

Media Specialist — Shriners Hospitals for Children, St. Louis, MO

August 2017 - Present

- **Graphic Design:** Assist all departments in creating material ranging from brochures, greeting cards, PowerPoint presentations, billboards, websites, digital screens, forms, and more.
- **Signage:** Work with department director in developing new, relevant content for digital screens in main lobby, registration area, and cafe. Update signage, art, and wayfinding throughout hospital.
- **Limb Lengthening:** Special project to assist with educating potential and current patients. Update website, monitor analytics, and optimize accordingly. Design motion graphics for videos.
- **Photography:** Cover hospital events, promotional photos, and clinical photos and videos of patients.

Graphic Designer — Surge Enterprise, St. Louis, MO

May 2017 - June 2017

- Create branding materials (logos, business cards, and social media ads) for startups.

Contractor — Apex Systems, St. Louis, MO

June 2014 - August 2016

- **E-Learning Developer at Energizer:** Develop 30-minute training video for retailers selling Energizer products. Write script on how to use the online ordering website, and narrate using Audacity. Build video using Adobe Captivate, and export for web.
- **Web Producer at Elsevier:** Redesign hundreds of medical journal covers for mobile devices. Assist in updating online journals using HTML and CSS. Upload and update new material via CMS.
